Spotlight: VA Software Assurance Support Site

This week's Secure Coding Tip is a spotlight on VA Software Assurance Support Site. This site is accessible both inside and outside of the VA network, and can be accessed [here](#).

This site provides information to assist developers with performing secure code reviews during development and during the ATO issuance process.

VA Secure Code Review Standard Operating Procedures ([SOP](#)), Frequently Asked Questions ([FAQs](#)), and [Technical Notes](#) are key resources that can be found on the site. Additional resources include a [Blog](#).
