

CAE-135: VHA Patient-Centered Care and Cultural Transformation (10NE)

This page has been made public for vendors

Abstract

The VA application is being developed and maintained by the VHA Patient-Centered Care and Cultural Transformation (10NE).

Explanation

The Office of Patient-Centered Care and Cultural Transformation (PCCCT) leads the transformation of health care from primarily reactive, sporadic and physician-centered care to personalized, patient-centered care that is based on relationships built on trust and committed to positive results over the Veteran's lifetime.
