

# CAE-336: Enterprise Operations

This page has been made public for vendors

## Abstract

The VA application is being developed and maintained by Enterprise Operations.

## Explanation

Enterprise Operations is comprised of the following organizational structure that works in concert to manage all VA enterprise solutions under the direction of the Executive Director of Enterprise Operations. This Office directs all operations and maintenance activities associated with the Enterprise VA IT infrastructure which encompasses all inherently corporate, missions critical and other IT systems for which a high degree of standardization in operation and management is required.
