

CAE-818: Office of Cyber Security / Office of Cyber Security Policy and Compliance

This page has been made public for vendors

Abstract

The VA application is being developed and maintained by the Office of Cyber Security.

Explanation

The Office of Cyber Security (OCS) establishes policy and oversees the implementation and operation of IT security programs across the Department. OCS oversees, manages, and directs all activities for audit resolution and readiness, the Certification Program Service, security architecture and software assurance, the Emergency Response team, and identity access management..
