

# CAE-892: Enterprise Risk Management Service (044F)

This page has been made public for vendors

## Abstract

The VA application is being developed and maintained by the Enterprise Risk Management Service.

## Explanation

The mission of the Enterprise Risk Management Service (ERMS) is to implement a VA wide enterprise risk management program and a capital asset risk management program to effectively manage infrastructure and lease risks. ERMS' goals are to provide reasonable assurance that VA is managing its top, emerging risks that could threaten accomplishment of strategic goals and objectives to include for instance SCIP goals and objectives.
