

How to download the VA-Licensed HPE Fortify software

This page has been made public for vendors

Question

How do I download the VA-licensed HPE Fortify software?

Answer

VA-licensed HPE Fortify software download instructions, including SAID and license file, are provided after the HPE Fortify license has been provisioned by the VA Software Assurance Program Office and upon successful completion of the [VA-licensed HPE Fortify software request process](#). The instructions that are provided are reproduced below for reference.

How to download the HPE Fortify software:

1. Go to <https://softwaresupport.hpe.com/>
2. Select **Sign-in** and enter your HPE Passport user id and password
3. In the HPE menu under **Products Information** select **Downloads**
4. Enter the **SAID** provided by VA Software Assurance Program Office if one is not already attached to your Passport account
5. Click the **View available products** button
6. HPE Fortify products are listed under the **Fortify Software Security Center**

After the HPE Fortify software has been downloaded, the VA Fortify License file provided by VA Software Assurance Program Office should be used during the installation process as prompted by the installer.

Please note that releases that HPE calls patch releases are generally not available from the standard download site and special download instructions are included with the HPE release announcement. The Software Assurance program office can be contacted for help downloading these patch releases.
