MAE FAQ

This space addresses the most frequently asked questions in MAE.

MAE Access

Health Adapter

I

Code Repository

What is the code repository we are using in MAE?

What is Fisheye?

What is Crucible?

How do I access code repository?

What is the user id and password for code repository?

I forgot the user id and password for my account

I am able to log into the Fisheye and Stash but not able to see the project that I am working on.

I can see my project, how do I clone the repository?

Where can I find more information about using Git repository?

How do I install Git on my machine?
